PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>In the methodology section it is not necessary for the authors to include figures referring to the results obtained as part of the experimentation.</p> <p>The methodology does not indicate the type of bacterial strains used for the study.</p> <p>In the methodology it is indicated that the elemental analysis will be performed by X-ray energy dispersion, however, in the results section only the micrographs of the surface analysis are shown.</p> <p>In Section 3.5, it is stated that the band wavenumbers observed in the ATR-FTIR spectra of all samples and the main band assignments are given in Table S1, however no table was inserted.</p>	
Optional/General comments	<p>It is suggested that the authors increase the size of the figures since the numbering of the corresponding axes is imperceptible.</p>
