There are too many grammatical and structure errors.</p> <p>3.it s not Mac Gregor flap. It is Mc Gregor flap</p> <p>4.please explain more about composite Mc Gregor flap.</p> <p>5.How did you get the conclusion that the results were good in % 90 of patients.</p> <p>6.there are so many terminological errors:for example there is no such a thing as fascio skin flap.It is fasciocutaneous flap . Skin substance loss is incorrect and absurd definition for a defect. There are a lot of terminological errors like that with in the submission.</p> <p>7.Please , use same term for the flap in the manuscript.You have used all different names of the flap , groin flap , Mc Gregor flap etc. pick one and use that within the manuscript.</p> <p>8.You defined Mc Gregor flap as an island flap and referenced with article authored by Mc Gregor himself. But in his definition this flap is a pedicled tubed flap not an island flap.</p> |                                                                                                                                                                                      |
