PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Overall, study seems to be conducted well. The authors have documented in detail about statistical methods. However, there are multiple issues with authors need to rectify before considering for publication.</p> <p>Abstract needs to be better structured along with pertinent information needed. Few recommendations mentioned.</p> <p>References are needed at multiple places throughout the manuscript</p> <p>In methods, HIV and AIDS have been used as synonyms which needs clarifications.</p> <p>Discussion is mainly commenting on their own results. Explanation of findings needed with cross-comparison to other studies</p> <p>Please mention the study/author then place the citation. For example: As supported by Tuboi et al. (ref)</p>	
Minor REVISION comments	<p>Consistency is needed throughout the manuscript.</p> <p>Please stick to either HAART or ART</p> <p>Grammatical and punctuation errors noticed, please address.</p>	
Optional/General comments
