PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Report of the article entitled "relationship among continuous probability distributions and interpolation."</p> <ol style="list-style-type: none"> In page 2 to 10 of the article write only probability density functions. Avoid derivations. All the derivations in page 2 to 10 of the article are available in "Gupta,S.C , and Kapoor, V.K(1980).Fundamentals of Mathematical statistics ,Sultan Chand & Sons" . In the reference list ,the references are not listed in the proper order. In the case of missing probability case the method suggested in Section 2 is good, since certain cases for a given value of x , even though the probability density function is known , it is difficult to evaluate probability value directly.
