General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalajpcb.com/index.php/AJPCB/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>write the recommendations merging on conclusion.</p> <p>In your introduction, write clear objectives(sentence is repeated). 2nd last paragraph have unclear sentences in introduction. Write methodology specific, not in paragraph. For eg: research design, area of study, study population(how you selected write it), sampling technique, sample size(calculate sample size why only 57 and why not 58, 59), variables, inclusion and exclusion criteria, Research instrument tool. Write Stages of pregnancy on table 4 and its interpretation instead of age of pregnancy</p> <p>Provide citation for literatures and manage in the references Write short conclusion which should include main finding and short recommendation. Recommendations have been repeated again and again. In this study, which is written below note has confusing sentence .</p>	
Minor REVISION comments	<p>This is not necessary in Exclusion criteria: those who were not present at the ante-natal care</p>	
Optional/General comments
