### **General guideline for Peer Review process:**

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajpcb.com/index.php/AJPCB/editorial-policy> )

**Review Form 1.6**

**PART 1: Review Comments**

|                                     | <b>Reviewer's comment</b>  | <b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|--|
| <b>Compulsory</b> REVISION comments | <p><b>Abstract:</b></p> <ol style="list-style-type: none"> <li>1. Introduction in the abstract should be a brief background of the study. But the authors stated a study setting as an introductory statement.</li> <li>2. Please check the main work as per the attached to correct the simple grammatical errors</li> <li>3. Under the results, list some of factors the mothers need to meet to practice KMC.</li> </ol>  |  |
| <b>Minor</b> REVISION comments      | <ol style="list-style-type: none"> <li>1. Please consider utilising the services of English experts to proofread your work due to the following issues               <ol style="list-style-type: none"> <li>a. Word choices</li> <li>b. Punctuations in compound or complex sentences</li> <li>c. Passive voice misuse</li> <li>d. Wordy sentences</li> <li>e. Unclear sentences etc.</li> </ol> </li> <li>2. The background of the study did not cover much information on KMC, especially, in Africa, for that matter, Ghana. I wish the author (s) could review some literature to address that in the background/introduction</li> </ol>   |  |
| <b>Optional/General</b> comments    | <ol style="list-style-type: none"> <li>1. The topic is interesting and insightful.</li> <li>2. The abstract provided a good representation of what was in the manuscript, except those maternal criteria for KMC should be listed</li> <li>3. Indicate the sample used for the study to arrive at saturation in the abstract</li> <li>4. The research questions have been explored by selecting appropriate study design.</li> <li>5. Prior studies have been discussed in detail and comparison made with the current findings and with proper citations.</li> <li>6. The limitations of the study seem to be missing.</li> <li>7. There were so many grammatical errors such as; passive voice misuse, punctuations in compound/complex sentence, among others things. Please seek for proofreading services</li> <li>8. It is a good contribution to the body of knowledge.</li> <li>9. Job well done.</li> </ol> |  |

**PART 2:**

|   | <b>Reviewer's comment</b>  | <b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|---|--|--|
| <b>Are there ethical issues in this manuscript?</b> | <i>(If yes, Kindly please write down the ethical issues here in details)</i> |  |
