PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The authors should describe more details about the outcome o the treatment chosen after the poisoning. Also, it is missing a comparison with other treatments mentioned and if they are compatible to treat children. A follow-up of the case was no performed in this case report. So, the authors should bring in the discussion what parameters should be evaluated along the patient treatment, how long the child stayed in the hospital, also to evaluate the hospital's conduct in dealing with these cases.	
Minor REVISION comments	Some grammar errors	
Optional/General comments	The problem of accidental poisoning, especially during childhood, was very well described.
