PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|--|---|
| Compulsory REVISION comments | The review is satisfactory, however, I could not understand the target reader population. If it includes medical doctors, some details may better be added. For example, there are more popular classifications such as 'DISSECT' which aims to state the site of entry, etc. Secondly, some grammatical errors should be revised. 'DeBakey' is written wrongly at some sentences in the text. | |
| Minor REVISION comments | | |
| Optional/General comments | | |

PART 2:
