PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1.The paper is concerned with Solar Energy Efficiency, but the literature is not covered. The authors really need to widen their literature, and show that their work is in some way an improvement to the current state of the art.</p> <p>2. After reading the paper, I am still not sure exactly what is new and what is claimed to be new. I can see the authors have being doing work</p>	
Minor REVISION comments	<p>1. The use of English is not bad, but to be fair is difficult to read. For example, "In the following, we examine" - in the following what?</p>	
Optional/General comments	<p>1. The authors do not seem to apply their work to an actual application – or at least prove that their method is better than current methods. Where would their work find an application?</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
