

Review Form 1.6

Journal Name:	Asian Journal of Research in Crop Science
Manuscript Number:	Ms_AJRCS_83028
Title of the Manuscript:	Abscisic Acid Mediated Abiotic Stress Tolerance in Plants
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrcs.com/index.php/AJRCS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	<p>I would like to thank you for the opportunity to participate in the review of the manuscript entitled "Abscisic Acid Mediated Abiotic Stress Tolerance in Plants".</p> <p>The subject of the manuscript is interesting. The text is quite confusing. It is possible to find several errors of interpretation of the cited manuscripts, as well as the absence of objectives or a line of development. I know that AJRCS values the incentive for publications, however, in order to maintain the quality of this Journal, I recommend that the authors rewrite the proposed review, based on a script with pre-established objectives and goals. I also suggest that the authors correlate molecular studies with plant physiology and biochemistry. There is a lot of information presented in the text, but not developed. It is important to observe the references with the numbering presented in the text. I believe that the Editor and the authors will understand my statements.</p> <p>I hope to have contributed in some way to the improvement of this manuscript.</p>
