

## Review Form 1.6

Journal Name:	<a href="#">Asian Journal of Research in Botany</a>
Manuscript Number:	Ms_AJRIB_87117
Title of the Manuscript:	Effect of foliarly-treated salicylic acid on the yield of Pennisetum glauca
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://journalajrib.com/index.php/AJRIB/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	While working with a single species of plant, it is very important to give the correct botanical name of the plant. In the present paper the botanical name is given as <i>Pennisetum glauca</i> which is not correct as per latest International Code of Botanical Nomenclature. <i>Cenchrus americanus</i> (L.) Morrone is the correct botanical name for bajra.	
<b>Minor</b> REVISION comments	Please check the coloured marked words/botanical names etc. Red marked ones should be deleted.	
<b>Optional/General</b> comments	Except for the above mentioned minor mistakes, the paper is well written.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
