PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none"> 1- The manuscript is full of grammatical errors, it must be rewrite with an eexpert person. 2- It is very difficult to understand the point in some parts, Due to poor writing 3- Images are not labelled, they are blurry and irregular. This confuses the reader, so it is better to mark the images with letters or numbers and display them regularly and without a frame. 4- The title is very general and inefficient 5- The introduction is not structured and what should have been explained has been forgotten. In this part, the reader is waiting to read information about imaging methods, types of patterns and their relationship with diseases, but this information does not exist 6- The author has used 2 references to write the introduction, which is not appropriate 7- Result aren't clear 8- The results and the discussion are inconsistent. 9- "Imaging modalities considered are radiography, computed tomography and ultrasound." The author states that ultrasound imaging is used to examine the Covid 19, while ultrasound do not used for lung imaging at all. 	
Minor REVISION comments		
Optional/General comments
