PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<u>Compulsory</u> REVISION comments	<p>The manuscript entitled "Acceptance of COVID-19 vaccine in the University of Port Harcourt Community (Lectures and Teachers), investigates the vaccine acceptance among the public teaching staff of tertiary in Rivers State institutions.</p> <p>The manuscript is well written and relevant literature was cited. The authors used the Taro Yamane formula in a simple random population of less than ten thousand and the results showed that about a quarter of the sampled population was willing to take the vaccine.</p> <p>Although the number of participants in the study is low, it is considered a contribution to the field of COVID-19 vaccination. It is also important to study the acceptance of the population to this new type of vaccines produced by new technologies which were not used previously worldwide.</p> <p>I agree with the authors that efforts are needed to improve communication strategies and implementations of catch up campaigns targeting also adolescents and young adults to enhance COVID-19 vaccination around the world especially the Africa continent.</p>	
<u>Minor</u> REVISION comments	<p>Some recommendations for the manuscript: I suggest that the words (Lectures and Teachers) be deleted from the manuscript title, and I would recommend checking the spelling, in some sentences (see manuscript marks in red).</p> <p>Please revise the References. The references names should be all in the same written style</p>	
<u>Optional/General</u> comments
