PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The study revealed that the location of viremia may indicate a risk factor, that it is very important conclusion. Although, I also think that we have other factors, such as comorbidities at the patient has.	
Minor REVISION comments	Tables must be formatted The references presented are not very up to date	
Optional/General comments	Very interesting article, Covid-19 pandemic has been studied because of little evidence of prognosis and diagnosis.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
