

Review Form 1.6

Journal Name:	Asian Journal of Research in Infectious Diseases
Manuscript Number:	Ms_AJRID_80251
Title of the Manuscript:	Prognosis of Covid 19 according to pneumonia types
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrid.com/index.php/AJRID/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Although the authors need to be lauded for their efforts, it is quite intuitive that a more widespread lung involvement related to COVID-19 pneumonia will entail a worse clinical presentation as well as mortality. It would be useful if the authors could revise the manuscript with separate sections for results and discussion with the comparison of their results with previous data/studies. In addition, the authors need to write a section on limitations of their study.	
Minor REVISION comments		
Optional/General comments	Furthermore, it will be prudent if the authors can revise the manuscript for grammatical errors before submitting it for a review.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
