Review Form 1.6

PART 1: Review Comments

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
|-------------------------------------|---|---|
| Compulsory REVISION comments | <p>Please incorporate in the body of introduction section some already published paper supporting your main objective related to transmission dynamics through immediate and effective contact tracing and highlight this issue., Also include some references for the infectivity among vaccinated and unvaccinated primary contacts.</p> <p>In material and methods, please indicate sample size studied, if any statistical method was used to analysis data. Also, which serological or molecular means were used.</p> <p>In findings, please describe Figure 1, because it is not mentioned.</p> <p>Please, conclusions sentences contained in findings move to discussion section and/or conclusions.</p> <p>The finding sections is confusing, it should be re-structured, please describe it following the order of figure and tables are referred in the text, avoiding conclusion in this section. Include the data/ (figures or tables) where contact tracing and surveillance is demonstrating its relevance, because data on Tables 1-3 are not statistically significance.</p> <p>Figure 2 and 3 are not mandatory to be included, because this figure does not contain any relevant results.</p> <p>Please, review carefully that references are properly cited in the text because there are some miscited.</p> | |
| Minor REVISION comments | Please, check for topological errors in the manuscript, because there are many words separated with two or more spaces. | |
| Optional/General comments | | |

PART 2:

| | Reviewer's comment | Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here) |
