Type of the Article	Data Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrimps.com/index.php/AJRIMPS/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The paper under review is an attempt to capture the components of pharmaceutical care in the country of study. The topic chosen for the study is very relevant for the practice of pharmacy and enhancing the pharmaceutical care process. There are multiple tables which have statistical analyses. The tables can be removed and the findings of the analysis can be put in running text. The sample size is indeed small; and, drawing sweeping conclusions would be inappropriate. The author need to rephrase the conclusion part.	
Minor REVISION comments	None	
Optional/General comments	None	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
