General guideline for the peer review process:

The peer review policy of this journal states that **the manuscript should be** rejected only on the basis of the "lackof**novelty**", provided that the manuscript is scientifically robust and technically sound. To learn the full guideline for the Peer Review process, reviewers are asked to visit this link:

<https://www.journalajrrga.com/index.php/AJRRGA/editorial-policy>

PART 1: Review comments

	Reviewer comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight this part in the manuscript. It is mandatory for authors to write their feedback here)
Compulsory REVIEW Comments	The work is relevant to the scientific community. The text is well structured. The discussion is clear and objective. My only suggestion concerns the structuring of the article according to the rules of the journal. The sections and subsections are not listed, as described in the standards manual for the authors.	
Minor REVIEW Comments		
Optional/general comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
