Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrrga.com/index.php/AJRRGA/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>In the manuscript, not everything is in English. In figure 1, even though the explanation for the figure is well explained above, the diagram is not in English, so it becomes difficult to understand for a nonspeaker. The same thing is visible in a few other places in the article. (When indicating negatives and positives in the tables.)</p> <p>In the "II.2- Sampling" part, I believe explaining/specifying what "a citric acid drink" would contribute to the overall quality of the manuscript.</p>	
Optional/General comments	<p>The manuscript is clear; it is easy to understand, organized, and meticulous. It also is in the guidelines to be an original research article. I believe this study will be a meaningful contribution to the literature since it offers valuable information and is a valid study. I recommend this to be published with minor revisions.</p>	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
