General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalajrrga.com/index.php/AJRRGA/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Interesting research, but not yet presented and described clearly. please correct it to make it easier for readers to understand your writing.	
Minor REVISION comments	This study is aimed to describe the clinical and anorectal manometry profile of patients with FC. Does the conclusion answer the research question or the aim of this study? Please describe the conclusion with specific sentences and not too general. Thank you	
Optional/General comments	In general, this article is good, but some statements confuse the reader. It would be much better if the reviewer who gave advice was one who mastered the manometry technique.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
