PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Materials and methods need editing. The design of the study, its successive stages and the materials used should be clearly stated. Instead, this section of the article already describes the results of the study. Results & discussion: 1. The data are well controlled and robust. 2. Authors provide relevant and current references during discussion. But, only 5 references were used in the article. In my opinion, this is not enough and should be added. 3. Discussion and conclusions are based on actual facts and figures. 4. Statistical analyses statistical analysis is not required in this paper. Conclusion is supported by the data, discussed inside the manuscript.	
Minor REVISION comments	"Healthcare management" should be added to keywords .	
Optional/General comments	In general, the article is relevant and useful.
