PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ul style="list-style-type: none"> - Almost all requested corrections were marked in their places in the attached WORD file. - In all tables, the F-value row must be added, in addition to the significant letters that followed each mean value. - All abbreviations must be written in detail before each abbreviation. - Table (3) must be corrected and discussed with the new correction for the week significance. - In Tables (3-10) the plus or minus (\pm) sign must be corrected. It could be added from "add symbol" option. - The author repeats the information in all tables in the paragraph followed each table, as if he/she writes a thesis, not as a scientific research paper. This should be revised. On the other side, the author repeats the same sentences or style for each table. - The discussion needs to be rewritten because it seems that is a historical review not a discussion with other research results.
