

Review Form 1.6

Journal Name:	Asian Research Journal of Mathematics
Manuscript Number:	Ms_ARJOM_78399
Title of the Manuscript:	A New Inequality with Its Application in Solving a Problem of Inequalities
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalarjom.com/index.php/ARJOM/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript uses elementary mathematics, there is only one result which is Theorem 1, nevertheless the author(s) mention in the Introduction that this inequality is used to solve a series of inequalities but in the manuscript only Theorem 1 is shown. In that sense I consider this issue must be clarified in the Introduction.	
Minor REVISION comments	Computations are clear and precise. Good level	
Optional/General comments	Once the issue mentioned above is solved I recommend the publication of the manuscript	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
