

Review Form 1.6

Journal Name:	Asian Research Journal of Mathematics
Manuscript Number:	Ms_ARJOM_79392
Title of the Manuscript:	SPECTRAL RADIUS OF A NORMAL OPERATOR
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalarjom.com/index.php/ARJOM/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>1- Abstract and conclusion should be extended. 2- Results and discussion need to be enhanced. 3- I suggest some comments by yellow color which are appear on the manuscript, with pdf file. 4- In the "Introduction" section the authors must also declare the novel aspects of their work. After declaring the novel aspects of their work, at the end of the "Introduction" section, the authors should present the structure of their paper, under the form: "The rest of the paper is structured as follows: Section 2 contains..."</p>	
Minor REVISION comments	<p>It will benefit the manuscript if the authors devise a proper "Conclusions" section in which they state the most important outcome of their work. The authors should avoid simply summarizing the aspects that they have already stated in the body of the manuscript. The authors should highlight whether, or to what extent they have managed to address the target proposed within the "Introduction" section.</p>	
Optional/General comments	<p>The following related articles must be cited: i)- Tanja Eisner, Tamás Mátrai, On typical properties of Hilbert space operators, arXiv:1008.3326v3 [math.FA] 28 Oct 2011. ii)- Amer Abu-Omar, Fuad Kittaneh, Generalized spectral radius and norminequalities for Hilbert space operators, International Journal of Mathematics Vol. 26, No. 12, 1550097 (2015)</p>	

Review Form 1.6

PART 2:

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
