Compulsory REVISION comments	I have gone through the article. It consists of two sections (1) Introduction and (2) Main Results. The author(s) included the sufficient number of references for understanding concept. In abstract, the author should include the MSC2020. In introduction part, the author should give the complete literature survey based on the reference part. In section 2, the numbering is not proper and notations are not readable/viewable clearly. Therefore, I recommend that the author(s) should revise the article.
