### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<ol style="list-style-type: none"> <li>1. There are grammatical mistakes, punctuations missing (especially at the end of equations), typos, unnecessary spaces and spaces missing throughout the paper. The author needs to review the whole article and correct all such mistakes.</li> <li>2. To support a statement, the author has sometimes cited dozens of articles all together at one place, this is not recommended, and the author should focus on few specific articles while citing them.</li> </ol>	
<b>Minor</b> REVISION comments	<ol style="list-style-type: none"> <li>1. The author has used images rather than text while writing mathematical equation, please type all these mathematical equations instead of using images. This does not only affect the spirit of the academic writing but also create imbalance in the line spacing of the script.</li> </ol>	
<b>Optional/General</b> comments	Over all, the reviewer consider this article a nice piece of review article and recommend it for publication after the above minor revision.
