Compulsory REVISION comments		
Minor REVISION comments	<p>In this article authors investigated the harmonic centrality of a graphs such as cartesian product of $P_{\{2\}}$ with $P_{\{m\}}$, $P_{\{2\}}$ with $C_{\{m\}}$ and Fan graphs. The results are limited to a very specialized family of graphs. Author may extend the result for generalized graphs. Further, author shown only the equality of harmonic centrality of such graphs. Please justify the lower bound of such graphs.</p> <p>However as the problem is in a area where there is considerable interest, I recommend it for publication.</p>	
Optional/General comments
