

Review Form 1.6

Journal Name:	Asian Research Journal of Mathematics
Manuscript Number:	Ms_ARJOM_88562
Title of the Manuscript:	Some fundamental properties of Variational Kurzweil-Henstock-Stieltjes integral on a compact interval in \mathbb{R}^n
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalarjom.com/index.php/ARJOM/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	In this paper the author defined the variational Kurzweil-Henstock Stieltjes integral on a compact interval. Fundamental properties such as uniqueness, linearity property and monotonicity property of both the integrand and integrator, additivity and integrability over a subinterval are provided. The results of the article look relatively new. Well written and arranged. I would like to recommend this paper for publication in the Asian Research Journal of Mathematics .	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
