PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	In this paper, the authors present a new biocontrol in prospect, the article's language is fluent generally. Where, the control group is deficient as far as I'm concerned. In the part of discussion, we could argue the high efficiency, safeness, sustainability, environment friendly.	
Minor REVISION comments	In the table 1, is the range of the crop fields' survey "average \pm SD" or "average \pm SE"? The author did not clarify this.	
Optional/General comments	The references are not sufficient, should include more related ones.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
