

Review Form 1.6

Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_74365
Title of the Manuscript:	The Relationship of TLR2 Polymorphisms with Infectious Diseases
Type of the Article	Systematic Review

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>This is an interesting paper on the relationship of TLR2 Polymorphisms with Infectious diseases, and the authors have focused on the SNPs in the TLR genes, which are related to sensitivity or resistance to various infectious diseases. And, he has tried to point out which SNPs exist in the TLR2 gene that causes susceptibility or resistance to infectious diseases.</p> <p>The manuscript is generally acceptable and I have made some corrections but some minor comments are still suggested:</p> <ol style="list-style-type: none"> 1. The paper could use some overall editing for the English language, syntax, grammar, and tense 2. The abstract has to be rewritten by someone proficient in English. 	
Optional/General comments
