

Review Form 1.6

Journal Name:	Annual Research & Review in Biology
Manuscript Number:	Ms_ARRB_77231
Title of the Manuscript:	Morpho-phenological variability of flowers and hybridization of five self-fertilizing lines of cowpea [<i>Vigna unguiculata</i> (L.) Walp.] in Côte d'Ivoire.
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	The manuscript good written and has valuable scientific information. I think the suitable analysis for the current study is diallel cross analysis according to Griffing method 1. it is important to estimate the general and specific combining ability effects of the complete diallel mating scheme, and estimation of hybrid vigour and the maternal effects .	
Minor REVISION comments	There are many notes fixed in the manuscript text need correction	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
