Title of the Manuscript:	Parasitic contamination of fresh bitter leaf vegetables - Onugbu (<i>Vernonia amygdalina</i>): a case study of farms in Nimo, Njikoka Local Government Area, Anambra State, Nigeria
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalarrb.com/index.php/ARRB/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments		
Optional/General comments	The manuscript covers the basic information and suggestion for the general public to take care of hygiene while using vegetables in day to day life. I suggest that these basic precautions should be spread among general public to avoid the chance of contamination by parasites. I also suggest to further extend the studies to involve detailed studies including some good techniques and methodology.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
