PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	All results should be presented in a sequential manner as [er the methods mentioned in M&M, presently it is in absolute haphazard very difficult to understand. Discussion of results should be extended as it is missing at various places. Control should be shown in each result. It would be better if the pictures of the food items should be added to the material method section as some of them are absolute indigenous food, very difficult to understand for the reader.	
Minor REVISION comments	The units of measurement should be mentioned in all antibiotic susceptibility test Figures should be arranged and grouped	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
