### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>No revision required</b> <b>May be accepted with very few corrections suggested</b>	
<b>Minor</b> REVISION comments	1. Author(s) shown claim that the HDL increases in normotensive women. 2. Reason(s) pertaining to elevation of HDL may be induced in the discussion. 3. Author(s) may also correlate CRP value with HDL values. 4. I congratulate author(s) for their work done on pregnant subject. However the comparative profile of pregnant women with hypertensive & hypotensive subjects will give more supportive evidence for in HDL level 5. I strongly recommended for publication for minor corrections.	
<b>Optional/General</b> comments	NIL	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<u>(If yes, Kindly please write down the ethical issues here in details)</u>
