### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalbj.com/index.php/BJI/editorial-policy>

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The abstract needs to be reconstructed completely according to framework of a scientific paper.</p> <p>English needs to be improved.</p> <p>Figures and tables must be referred in the text.</p> <p><b>This manuscript with current format cannot be considered for publication purpose. With regard to this fact that the current topic encompass a variety of subjects and matter to discuss I recommend authors to extend their manuscript to minimum 7000 words to cover all topics. By the present study there is no new discussion in the text and it seems a simple collection of implications and concepts.</b></p>	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
