PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<u>Compulsory</u> REVISION comments	<ul style="list-style-type: none"> • Abstract should be modified. Authors should add more details about their work and results. • Introduction section, should be modified and authors should add more references from 20.20 to 20222. • The quality of figures are not good and authors should change them. • The advantages of the proposed component over existing products is not clear. So, the significance of this research is not easy to judge. • Numerical simulations sound very comprehensive. Are there any assumptions behind this study that could restrict its practical application? Assumptions can be highlighted. • The results and figures are appropriate however; author should add more physical explanation for the observed results. 	
<u>Minor</u> REVISION comments		
<u>Optional/General</u> comments
