

## Review Form 1.6

Journal Name:	<a href="#">Current Journal of Applied Science and Technology</a>
Manuscript Number:	Ms_CJAST_77184
Title of the Manuscript:	Crop Residues Management under Changing Climate Scenario
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<http://peerreviewcentral.com/page/manuscript-withdrawal-policy>)

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	This paper is interesting and mainly discusses the relationship between soil health and crop residual management. It provides different treatment methods of dealing with crop residue across developing countries, mainly Indian and China. The main suggested edit would be to add some additional discussion (probably one or two sentences?) about disadvantages/advantages and effects of different treatment methods on environment in each of the paragraph in section 4.	
<b>Minor</b> REVISION comments	None.	
<b>Optional/General</b> comments	None.	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)	

## Review Form 1.6

As per the guideline of editorial office we have followed VANCOUVER reference style for our paper.
