

## Review Form 1.6

Journal Name:	<a href="#">Current Journal of Applied Science and Technology</a>
Manuscript Number:	Ms_CJAST_81434
Title of the Manuscript:	Physical and Engineering properties of Coconut (Cocos nucifera L.)
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalcjast.com/index.php/CJAST/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<p>The title, purpose and discussion of the paper are not appropriate. We recommend that the title and objectives refer to the discussion. The focus of the discussion of the paper only describes the portrait of the physical properties of 50 coconuts in Tavanur Panchayat. There is no discussion related to the design of the coconut crushing machine at all.</p> <p>It is better for the title to include the location of the research, because the results of the research are site-specific</p>	
<b>Minor</b> REVISION comments	<p>The introduction is better to discuss: site selection, location performance, why this research needs to be done and compare the results of other people's research to the object of research carried out</p>	
<b>Optional/General</b> comments	<p>References need to be added at least 10 papers and the year is at least 2000</p>
