PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Page 6 the statement "As for the request for information on HIV-19 vaccines, the authors in Vietnam found that it was associated with a higher acceptance rate among health care workers [14]." Would it be COVID-19 instead HIV-19?</p>	
Minor REVISION comments		
Optional/General comments	<p>Discussion: From author data, how 54.91% of company workers that don't want to be vaccinated against COVID-19 can affect the Oil Company business? My suggestion is to explore better this topic to connect with company business risks.</p> <p>Conclusion: The statement "to target communication with the workers of this company in particular and with all workers and the general population". Maybe the author can suggest how to increase this communication. Maybe throw Government advertises or inside the Company to prevent contamination and outbreaks.</p>
