Manuscript Number:	Ms_CJAST_82962
Title of the Manuscript:	Does Latent Tuberculosis Lead to a Spurious Correlation between BCG and COVID-19 Mortality?
Type of the Article	Original Research Article

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalcjast.com/index.php/CJAST/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	Manuscript with good focus. Results developed according to the research objective. In the discussion, the comment on the studies mentioned (Chimoyi L et al., Aksu et al., Fukui M et al., Clément et al. , Hamiel U et al. , Asahara M and Hensel J. et al. ), some statistical data found by these studies could be included in parentheses so that the reader is placed in context and does not have to interrupt reading to document these results. At the end of the discussion, make a clear and precise recommendation on how to overcome the problems related to the confounding factor.	
<b>Minor</b> REVISION comments		
<b>Optional/General</b> comments		

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
