PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Introduction needs major revision. Recent references and statistics must be included in the introduction. Abstract must be made more effective. The details of the experiment animals must be mention clearly. The plant species identification procedure must be shown. The feeding chart with the ingredients must be shown in the table elaborately.	
Minor REVISION comments	Repetition of the references in the discussion parts must be avoided. The sentence formation needs to be addressed with care especially in the results and discussion part.	
Optional/General comments	The article was written lazily. Grammatical error was in plenty. The ideas do not have a flow. The usage of compound sentences must be minimal. Overall major revision is required.
