

Review Form 1.6

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_85164
Title of the Manuscript:	Effect of disharmony between ecosystem and human well being
Type of the Article	Review Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalcjast.com/index.php/CJAST/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>Type of study, key results of a review study are missing in the abstract.</p> <p>Middle of the page; supportto mental health?</p> <p>Please explain and discuss the real mean of human wellbeing in a separate paragraph.</p> <p>Please explain and discuss the existing instruments to assess the relationship between human wellbeing and the ecosystem.</p> <p>Please explain what means sustainability in this topic. And how can be achieved?</p> <p>Please let us know the application of decision theory in impact assessment between ecosystem and human wellbeing.</p> <p>Please recheck typographic errors in the text.</p> <p>Please check and correct the attached words together.</p> <p>Recheck the coherence of the below sentence in itself.</p> <p>Excessive use of natural resources to satisfy needs of the increased population for food and other services can wear downthe ecosystems by soil degradation, water depletion, and contamination;fall down of fisheries, or loss of biodiversity. Provide habitats for a variety of wildlife.</p> <p>Please recheck grammar in some cases.</p> <p>It is a good research and comprises a vast number of variables to discuss. But authors covered the majority of topics relevantly.</p> <p>I suggest authors collect some summary of assessment tools (e.g., models, indices, statistical assessments) and their positive and negative relationship between ecosystem and human well being as literature review in a table.</p>	
Minor REVISION comments		
Optional/General comments
