

Review Form 1.6

Journal Name:	Current Journal of Applied Science and Technology
Manuscript Number:	Ms_CJAST_86008
Title of the Manuscript:	Revisit the Hydrogen Molecular Ion
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

<https://www.journalcjast.com/index.php/CJAST/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Due to very bad English, the authors are not able to put forward what they want to. Too long and too primitive introduction. Instead if the authors can say something about their previous publication which they have been referring many times in the manuscript, and then spell out what their modifications or improvements they have put forward in this paper. Suddenly they put across some equations even without any explanation. There are no data presented. The applications can be put in a single paragraph. No clarity, no focus. The presentation should be in such a way that even the first time reader should be able to know what is happening and appreciate the idea leave alone its use.	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
