PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Good paper that should be quite useful in the area of degradation challenges in landuse and landcover generally and specifically for Kainji Dam. Worthy of publication after minor amennments	
Minor REVISION comments	Rearrange the study result in the order of the research study objectives. Sort out correct location of Table 2 and figures 2, within the paper as I believe they are part of your study result. Please improve the number of references and update them so that the study background literature is up to date.	
Optional/General comments	Quite a relevant study in the light of landuse degradation and environmental sustainability concern within and around the Kainji Dam, vice-a-vice the significant role it plays in provision of electricity for Nigeria
