

## Review Form 1.6

Journal Name:	<a href="#">Current Journal of Applied Science and Technology</a>
Manuscript Number:	Ms_CJAST_89898
Title of the Manuscript:	Empirical Models for the Determination of the Compression Index from the Limits of Atterberg: Case of the soils of the Issaba depression in Benin
Type of the Article	

### General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journalcjust.com/index.php/CJAST/editorial-policy> )

### PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	The paper was properly written with strong list of references. The methodology was also satisfactory with good numbers of soil data	
<b>Minor</b> REVISION comments	In my opinion, it will be a very good approach to compare the empirical model reliability with other existing model especially with the study conducted on the same type of soils.	
<b>Optional/General</b> comments	Please consider the comments and corrections made by reviewer for this paper	

### PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
