

Review Form 1.6

Journal Name:	European Journal of Medicinal Plants
Manuscript Number:	Ms_EJMP_82573
Title of the Manuscript:	Assessment of Authenticity of Market Samples of Hypericum Using Phytochemical Fingerprinting Tools
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	It seems to me that the validated use of other <i>Hypericum</i> species as a drug similar to <i>H. perforatum</i> should be further explored. In the introduction it is important to note references to the traditional use of <i>Hypericum</i> species. In the discussion, express whether the use of several species of <i>Hypericum</i> in medicinal plant markets is valid in practice, given that there are similarities with <i>H. perforatum</i> . On the other hand, if there is information on the handling of <i>Hypericum</i> samples in the field, it is convenient to discuss this and, if not, leave it as a need for future study.	
Minor REVISION comments	See minor comments in the document	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
