Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<p>TITLE: The title of the manuscript is coherent and represents well the research carried out</p> <p>ABSTRACT: I suggest rewriting the text referring to the research objective (written in the body of the abstract), since the main objective of the work was to determine the levels of pesticides in cola nuts produced in Côte d'Ivoire, in order to estimate the risk for the health of the consumer, which is different from decreasing the levels of organochlorine pesticide residues in cola nuts</p> <p>INTRODUCTION: Well-written and enlightening introduction to the research theme</p> <p>OBJETC: Clearly defined and relevant objectives</p> <p>MATERIALS AND METHOD: The materials and methods are very well written and detailed for future reproduction.</p> <p>RESULTS: Very well written and elucidating results for food safety issues</p> <p>DISCUSSION: The discussion showed a great scientific contribution about pesticide levels in kola nuts produced in Côte d'Ivoire.</p> <p>CONCLUSION: This study supports the monitoring work of agencies responsible for food safety, as well as protecting the health of consumers of nuts</p> <p>REFERENCE: broad and well-referenced research</p>	
Minor REVISION comments	Observe the suggestions in the manuscript itself.	
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	<i>(If yes, Kindly please write down the ethical issues here in details)</i>
