PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	<ol style="list-style-type: none">1. In Materials and Methods, The authors have to re-write in reported speech.2. For example, under proximate analysis, the authors should write in such a way that the experiment was performed and not copying from Laboratory manual. What are W₁ and W₂ should be explained.3. In phytochemical analysis too, the authors should re-write and report what was done and not word for word from the Laboratory manuals.4. Same goes for anti-microbial analysis5. In Conclusion section, please re-write the first sentence for clarity	
Minor REVISION comments		
Optional/General comments		

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
