

Review Form 1.6

Journal Name:	International Astronomy and Astrophysics Research Journal
Manuscript Number:	Ms_IAARJ_79041
Title of the Manuscript:	Dark matter in the planetary system
Type of the Article	

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaliaarj.com/index.php/IAARJ/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	So far it seems that calculation value came 18% which is very near to the value that had been calculated before as 26% to 27 %. The differences of dark matter percentages is nominal. Thus there is a possibility that the percentage calculated in this theory may also be logical.	
Minor REVISION comments	The writing may divided in to the following major points: 1. Introduction 2. Method 3. Result 4. Decision 5. Conclusion 6. References	
Optional/General comments	Acceptable	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
