

Review Form 1.6

Journal Name:	International Astronomy and Astrophysics Research Journal
Manuscript Number:	Ms_IAARJ_80374
Title of the Manuscript:	Gravitationally Polarized Protons in Interstellar Hydrogen Gas and Dark Matter Generation
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound. To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

(<https://www.journaliaarj.com/index.php/IAARJ/editorial-policy>)

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments	Page 1, under abstract, in third line, hadron and theory need to be separated. Same page, under introduction, 7 th line, proton and in need to be separated. Second paragraph, last line, <u>as is illustrated</u> , can be better if it is reflected as, as it is illustrated. Third paragraph, author could have elaborated more on how classical mechanics is not following the said assumption. Under reference part, alphabetical arrangements needs to reconsider and also the alignments.	
Minor REVISION comments	There are grammatical errors like spaces between the words not properly done. This may be due to the manuscript format but author can always look over it.	
Optional/General comments	Generally, the article looks fine but to me as researcher, I found references too less. With minimal references, the end users may not be that credible.	

PART 2:

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Are there ethical issues in this manuscript?	(If yes, Kindly please write down the ethical issues here in details)
